BRYAN NOMINATED THIS MORNING ON FIRST BALLOT

After Night Session Final Voters Of States Is Taken.

MITCHELL LOOKS GOOD

Likely That Labor Leader Will Be Chosen For Vice President.

Denver, Col., July 10, (Special to Mail.) The Democratic National Convention this morning at 3:11 o'clock, Western time, 5:11 Eastern time placed in nomination on the first ballot William Jennings Bryan for President of the United States by a large majority. Gov. Johnson of Minnesota and Judge George Gray of Delaware stood little show after Bryan's name was put before the delegates last night by Ignatius Dunn.

It was at 11:06 o'clock, Eastern time, when Bryan was named and then an ovation began which lasted until after one o'clock this morning. When the final vote was taken it was greatly in Bryan's favor.

Johnson and Gray outside of their own State delegations made a very small showing.

It now looks as if second place will be given to John Mitchell, the former leader of the miners. He is a strong man and is proving a favorite. It is quite probable that soon after the convention opens at 3 o'clock he will be nominated.

AFRAID \$300 BAIL MONEY MIGHT RUN OFF

It now rests with the District Attorney as to whether the \$300 bail of Mrs. Fred Pinfold of Charleroi will be canceled and she spend the time in jail awaiting a court trial on a charge of assault and battery and using vile and abusive language, or the bail will be retained and she be free.

Mrs. Pinfold was held on Wednesday evening for court by Justice Wilson, she furnishing the bail. Yesterday it is stated she appeared and wished the bail refunded, saying she would rather go to jail. The matter was referred to the District Attorney for settlement. Mrs. Pinfold it is understood thought she would lose her money.

A Great Coal Port.
Maha is one of the most important coal ports in the Mediterranean, and consequently there are many firms there dealing in coal, of which there is at all times a large stock on hand.

Railway Supplies Are Many.
At a convention of railway storekeepers one of the statements made was that the storekeeper of the average big railway system carries 55,000 items of material in stock. Railway "scraps" are of sufficient importance as an economic factor to be divided into 133 classes in order that they may be sold most profitably.

Chinese Executions.
In Canton every two weeks there is a public execution of criminals in one of the market places.

MUST TAKE VACATIONS WITHIN CERTAIN TIME

Rural mail carriers who want a vacation at the expense of Uncle Sam will have to crowd it in between July 1 and November 1, according to notices order sent out by Postmaster James M. Esler of the postoffice department at Washington.

Rural carriers are allowed two weeks of each year with pay. In the past they were permitted to take their two weeks whenever they desired and it did not matter to the powers that be at Washington whether it was taken in July or March, just so it was taken. It is all different now. Rural carriers will have to take their time off during the nice weather and will not be able to lay off in the winter for the purpose of going hunting. The new order goes into effect at once.

INTERESTING SOCIAL NEWS OF THE DAY

A pleasant surprise was tendered Mr. and Mrs. Harry Smith of Toronto, Ohio, by the ladies of the L. C. B. A. at the home of Mrs. Ed. Reardon of Crest avenue. Music singing, and conversation whiled away the pleasant hours. At a late hour supper was served to about 40 guests who thoroughly enjoyed the good things prepared.

Mr. and Mrs. J. D. Berryman gave a barn dance at their summer place, Rose Croft, at Library last evening many attending not only from Charleroi, but from Pittsburgh, Cleveland, and Monongahela valley towns. Jenkins orchestra of Charleroi furnished the music. An elegant luncheon was served the guests which were about 150 in number.

Gleanings.

Cremation is forbidden in Belgium. Early grayness without baldness is said to be an indication of long life.

Australia's largest cattle herd is that running on the Victoria river station, northern territory, 320 miles south of Port Darwin. It numbers 60,000 head.

M. Tournay, a Belgian engineer, has been commissioned by the committee for the international exhibition at Brussels in 1910 to erect a tower at Ixelles which will be much higher than the Eiffel tower. The cost is estimated at \$240,000.

Visitors at a Paris hotel were disagreeably surprised one morning to find that the boots they had left outside their doors had been stolen by a burglar. Only one pair was left, on which was a paper with the words, "Not good enough for me."

Science Siftings.

A man's brain attains its maximum weight at the age of twenty years, that of a woman at seventeen years.

The typhoid bacillus is so minute, says a doctor, that a drop of water might contain millions.

The diamond, so long the hardest known substance, now has two rivals, the silicide and the boride of titanium, products of Henri Moissan's electric furnace, being claimed to be as hard.

Saturn revolves round the sun once in about thirty of our years, and as its rings are inclined at an angle to the plane of its orbit the rings present a constantly changing face to us.

CHARLEROI WINS FROM UNIONTOWN IN FIRST INNING

Many Hits Off Both Pitchers Feature a Good Contest.

CHERUBS BUNCH BINGLES

Three Scores In First Inning Too Much Of Lead For Pikers.

Charleroi beat their rivals in the Pawpa league, Uniontown, yesterday, in a game figured principally by the heavy hitting of both teams, the locals having a little better of the argument in that line, however. Both clubs made a total of twelve safeties, but the Cherubs were more bunched. Charleroi started scoring in the first and pushed over three runs while the alleged Millionaires and Albright's Idols, Our Own, etc., were standing around trying to look pretty and make a hit with the fair ones in the grand stand by their graceful appearance. The worst performer of the bunch in that session was one Mr. Shettler who was touted as a headliner in his pitching act. He started by walking Nally. About the time he thought he had settled down to business Dunn faced out a two bagger. In the meantime Nally had gone to second on a passed ball, and of course he trotted in on Dunn's crack. Then O'Hara came up and batted out a single. When Capt. Cosgrove advanced with his timber and bingled, O'Hara took second and at Robb's out when he stung one down to second, tried to reach home—but was caught at the plate. Cosgrove had stole second, took third when O'Hara was caught and scored when the great Rudolph dropped Pickle Heinz's fly. That was enough for Charleroi, for with three scores in the lead they could almost afford to laugh at the Pikers. They made strong bids for scores in the fourth and sixth but failure to connect safely stopped the proceedings. Uniontown did something in the third inning, scoring one point, after two were out, Cowan from Heinz to Humphries who covered first bag, and Pitcher Shettler striking out. Rudolph was given a walk, and Hilley laced out a one base hit, advancing Rudolph. When Gilligan singled the above named and famed left fielder crossed the platter. In the sixth they made a strong bid for a run, when with Josie Phillips, Roberts and Redman on base and one out, Cowan sent a boulder down to Dunn about two feet away from second. Every man on base dug, thinking it was a safe hit. Not so. Dunn made a nice stop, tossed to Cosgrove who

LIKELY THAT A FOREIGN SCHOOL WILL BE STARTED

Aliens To Be Educated In Lines Of Better Citizenship.

REPRESENTATIVE HERE

Looking Over The Ground In Monongahela Valley Yesterday.

A representative of the Western Pennsylvania Training Schools for Adult Foreigners was visiting in Monongahela Valley towns yesterday, to look over the grounds for starting branches of the school throughout this section. Charleroi, Monessen and Monongahela will probably be among the places where these are started. It is more than probable that Charleroi will be the main center of the schools to be established along the valley, inasmuch as there are already several educated foreigners in this place who are at work to aid their brothers. The night schools last year meant a great deal for the aliens in this place.

Following are some of the correct ways taught foreigners in Citizen's English schools.

1st. To dispense with all knives and guns used for protection to the person, and that our Laws are sufficient protection to all law abiding Americans.

2nd. To deposit their earnings in American Banks for safekeeping.

3rd. To subscribe for the Daily or Weekly newspaper of their community, and to bring them to the evening school for the lesson in English, in learning the news of the day.

4th. To refrain from intoxicating drinks of every kind and to spend their money in stores where things are for sale that will make their homes truly American and their children happy.

5th. To keep the Sabbath—not as a holiday but as a Holy Day.

6th. To keep in mind that both civil and Religious Liberty is guaranteed to every one in America.

7th. To love their native land as a man should love his mother, but to love America as a bridegroom loves his bride.

A pension of \$12 per month to date from June 3, 1908, has been granted to Robert Cain, Canonsburg, Pa. Mr. Cain was a private in Co. L, 4th Regt., Pa. Vol. Cav.

An appeal was taken at Uniontown to open court by the county commissioners from the report of the county auditors, which placed upon the commissioners surcharges amounting to over \$3000.

THIS TONIC AND BOOZE ARE NEARLY THE SAME

Jacob Jones and Thomas Brooks were held for court at hearings before Justice. E. N. Dunlap of Washington, yesterday afternoon. Each is charged with selling liquor without license. Jones was given his hearing first. He was held under \$500 bail for his appearance yesterday afternoon and entered the room a little before the time for the hearing. Attorney O. C. Underwood represented the defendant while District Attorney C. L. Acheson took care of the Commonwealth end.

Witnesses were called who testified to having purchased "Ideal Tonic" at the Jones restaurant, West Chestnut street. Prof. H. B. Wells, of W. and J. college, was called to the stand. He testified to having made an analysis of the tonic. He had numbered the two bottles secured from the Jones restaurant, Nos. 1 and 2. Bottle No. 1 contained 5.17 per cent. alcohol, while bottle No. 2 contained 5.19 per cent., according to Prof. Wells' test. The announcement of the analysis caused quite a stir in the room as the majority of beer sold in Washington does not begin to contain 5 per cent. alcohol, it is said. Brooks was present during the first

hearing and his hearing was taken up immediately after the first one closed. The defendant had no attorney. Prof. Wells was a witness in this case also. Bottle No. 1 which was purchased, it is said, from the Brooks restaurant, according to the figures submitted contained 4.67 per cent. alcohol, while bottle No. 2 contained 5.07 per cent. alcohol. District Attorney Acheson did not sum up in this hearing and Justice Dunlap held Brooks. Both defendants were held in \$400 bail for the August term of court.

Festival.

The Washington Avenue Cadets of the 3rd Regiment United Boys Brigade of America will hold a festival in their Armory in the basement of the Church, corner of Fifth and Washington avenue on Friday evening of this week. Ice Cream, Cake, Raspberries and Cream lemonade and Candy will be served. The ladies of the church will be in charge and every one is invited to come. The proceeds to be used to complete the equipment of the Brigade.

MONONGAHELA AFFAIR CAUSES EXCITEMENT

Church people of all denominations and the Baptist in particular of this county are becoming greatly stirred up over the state of affairs at the First Baptist church, Monongahela, where suit has been brought in the county courts by one side to oust the minister, Rev. W. H. Shawger, and obtain possession of all the church property, now held by a number of its congregation. The Pittsburgh Baptist Association unanimously excluded the pastor on charges of untruthfulness and being divorced on unscriptural grounds, yet he still preaches and occupies the parsonage. The papers in the suit of ejectment against the First Baptist church were served this morning by Deputy Sheriff Howe. It is understood that the opposing side, and the ones against whom the suit has been brought, are today formulating an answer which will be made this evening.

OPERATIONS TO BE RESUMED AT TARENTUM

Assistant Superintendent Irving Brown of the No. 2 works of the Pittsburgh Plate Glass company at Tarentum, received word yesterday morning from the Pittsburgh office to hasten repairs as much as possible at the plant and resume operations Monday morning, July 27th. Notices to that effect are now being posted throughout the plant. This official notice confirms the statement published several weeks ago that the shutdown would only be for four weeks, although calamity howlers at that time were prophesying that the plant would be closed until January 1st. Superintendent R. O. Stilwell, who is now enjoying a vacation at his old home in New York state will return about July 20th in order to have everything in shape for the resumption the following week.

There seem to be no prospects of the local plant resuming at this time but it is almost generally believed that some time this fall, the works will begin operations.

Base Hits.

The New York Americans have sold Outfielder Baerwald, alias Bell, to the Memphis Southern league club.

The Boston Nationals have transferred Pitcher Ostleik to Providence and Pitcher Maire to Lawrence.

Unless present plans miscarry it is Manager Jennings' intention to work Summers and Mullin in every series for the rest of the season.

For the first time since he has been with the Cubs Artie Hoffman holds a regular position. Manager Chance announces that he will play Artie in right field permanently.

The chest protector introduced by Billy Sullivan of the Chicago Americans is being generally adopted by major league catchers. It is an upholstered affair that folds back over the shoulders and is fastened after the fashion of shoulder braces. It does away with the inconvenience of inflation, which was one of the drawbacks of the old pneumatic type. The new gear folds four ways and takes up no more space than the pneumatic kind.

The newly elected officers of Charleroi Circle 303 P. H. C. will be installed this evening. All members are requested to be present.

Monongahela Sufferers To Be Relieved By Water Company's Action.

PIPE MUST BE LAID

Connection at Black Diamond, The Nearest Point.

The Monongahela Water Company this morning made arrangements with the Pennsylvania Railroad company whereby they could tap their pipes at Black Diamond and furnish water for the suffering residents of Monongahela. This is the nearest point where the main could be tapped, the P. R. R. company's lines running through Monongahela.

To connect with the system in the city, between 1200 and 1600 feet of pipe will have to be laid. This is to be four inch pipe. The water company will begin work at once and employ a large force working night and day to hustle the line to completion, and thus relieve the sufferers.

While in this way the stream in the pipes may not be as strong as though coming from the reservoir it will be nevertheless most satisfactory. One advantage will be the pureness of the water.

That in the reservoir is being saved so that it may be used in case of fire. The pressure down town today is about the same as it was yesterday.

In making the connections with the P. R. R. water main, will require twenty-four hours at least.

SHOW PEOPLE ARRESTED FOR STEALING GOODS

California, July 10.—On a charge of the larceny of a gold watch and several articles of clothing, A. W. Reynolds and Grace Reynolds, members of the Bailey Carnival company exhibiting at this place, were given a hearing yesterday before Justice of the Peace J. D. Hornbake. They pleaded not guilty to the charge although a portion of the articles were found in their possession, claiming they had been gathered up with some of their own clothing. They were released upon returning the articles and the payment of costs. The actors secured rooms at the home of Harry Jenkins but after spending one night there left. It was then that the articles were missed. The watch was later found in the Jenkins' home. Officer Lake arrested the pair and searched their belongings.

WALL CLOCKS

What's so reliable as the calm dial of a faithful clock as you hurry out to business in the morning or its smiling greeting on your return? We offer them with large, clear, handsomely framed, as hanging clocks—others as standing clocks. Handsome mantel clocks, too in exquisite frames, and as accurate time keepers as our wall clocks. Here's a display of clocks, beautiful, useful, at prices that put to shame even that priceless article—fleeting time. You can't get lost buying one of these clocks.

Are Consistent.
Some of the Bryan organs seem
greatly grieved and indignant because
of the papers they are pleased to term
"ring papers" criticize the methods of
the air compressor at Denver.
Now the fact of the matter is, these
same "ring papers" were equally frank
in their criticism of the methods of
the steam roller at Chicago. Both
deserve criticism, unless might makes
right, a contention utterly at variance
with fair play. Guffey was chosen by
the rules of the primary election laws
of Pennsylvania and the rape com-
mitted at Denver would spell disaster
there even a remote chance of the
Democrats carrying Pennsylvania. Just
as it would in the South had they any
chance to resent it at the polls.
It is a certainty that were any of the
States whose delegations were air-com-
pressed and steam-rolled, debatable,
nobody would have dreamed of using
such methods. The "ring papers" at
least have not lost their sense of fair
play, a thing that cannot be truthfully
said about their critics. Remember
always that "the ring" is composed of
the other fellows, as such virtuous,
lofty-minded people as yourself never
join with their fellows in a common
purpose, but like the Pharisees of old
stand afar off, smite your breasts and
thank God your are not the same as
other men.

A New Richmond.
The public has been converted from
some of its sins and rescued from the
pit of perdition through the evangelis-
tic work of "reformed" burglars,
gamblers, prize-fighters, cowboys,
piratils, train robbers, and other kinds
of penitent malefactors. Their efforts
seemed productive of great good.
But Washington county is going to
produce a novelty, something unique
in the line of reformatory thrillers.

It is stated that a "reformed" poli-
tician or two will enact the role of
the "horrible example" of the tur-
rible results of "booze and boodle" on
the high aspirations of "leading and
prominent" politicians, after they had
lost the combination that worked those
fearsome things.

It is stated that "Alphabet" Ach-
son is working night and day sending
out "letters" to the Jacktown Consta-
ble informing him that "Congress
alone does" NOT "have power to
regulate commerce between States,"
and a "rule" will shortly be given to
that effect.
At any rate Evangelists Sunday and
McAuley, et. al., will have to bestir
themselves to greater activity or the
"reformed politicians" will eclipse
them into utter insignificance.

Did You.
Did you ever see a political "reform-
er" who was not fired with an insatiate
lust for office-holding? Did you ever
in all of your life meet a "reformer"
not a perennial and perpetual office
seeker? And is it not your whole
experience that "reform" meant an
office? Resolve it into its last analy-
sis, and does not "reformer" mean
"office seeker"?

Sit down, and commune with your-
self, and count up the "reformers"
you have known, and candidly, can
you not count the number who reform-
ed anything political on the fingers of
one hand? And even with these, were
not they pitiful and grotesque in the
failures they made to redeem their
high sounding proposals?
Take Pennsylvania, for instance.
Pennsylvania politicians are anathema
and marantha to "reformers." Yet
Pennsylvania has the best school laws,
better hospitals, the best primary
and election laws, more and better
mining laws, more and better factory
laws, the best license law, in short as
the enactment of humane, enlightened
law can safeguard human rights and
further the interests of education and
human progress towards better
things, Pennsylvania leads every State
in the Union.

Take a reform-ridden State, Kansas,
for instance, where every long-haired
man and short-haired woman has an
ism or ist labeled "reform," and com-
pare her laws with those of Pennsyl-
vania, and see how small a figure they
cut. "Wolverine Ike" and "Alfalfa
Moll" are great on "reform" but a
joke as law-makers.

Speaks From Experience.
The time will come—it is not here
yet—when the hoodling politician,
when the man who carries the sack,
the man who provides the finances,
will be unpopular.—A Dynasty Organ.
Unless "common report is a common
liar" a big start was made in that
direction in this county April 11th,
1908. And judging from the political
debris scattered throughout Washing-
ton county that start means that the
"sack" failed in its old-time power
to "retain" the voters to the cause
of the Dynasty.

Still Holds On.
The air compressor still holds on to
its frenzied methods. Judging from
the various newspaper reports the con-
vention would be acquitted of a capi-
tal crime on the grounds of emotional
insanity.

Should Not Blubber.
The Dynasty should carefully read
the accounts of the massacres of Jew-
ish prisoners at Ykaterin prison before
it indulges in any more lachrymal
cant about the "poor Russians."

Because there was no evidence to
convict Louis Koko, who was jointly
indicted with John Shumaker for the
murder of Alex. Shumaker, at Mead-
owlands last March has been released
from jail.

Robert Mahaffey, a well known
farmer of near Taylorstown, died this
morning, from the effects of a stroke
of paralysis. He was born and raised
in that community and had followed
farming all his life. He is unmar-
ried and resided with two sisters and
a brother.

Toney Dombroskey and Toney Key-
eskey, who tried to secure \$100 in
hard cash from Steve Kovick, at Mon-
ongahela, in exchange for a counterfeit
bill, were each given six months to
the workhouse.

Upon the petition of Sheriff John
C. Murphy the court appointed a
commission in lunacy in the case of
Lawrence Doyle, of McDonald, who
was committed to jail about four
weeks ago on a charge of surety of
the peace.

Rev. J. W. McIntyre, of Washing-
ton, will have charge of the meetings
of the Union Holiness association,
which begins at Bentleyville August
14.

Andy Lalitch of Daisytown terrified
residents of the village by running
through a street and snapping a big
revolver at passersby. A policeman
from California arrested Lalitch, who
pleaded that he did it to be funny.
Justice Hornbake sent Lalitch to jail
for three months.

Goaded to desperation by repeated
ravages of sheep-killing dogs, the
Greene county commissioners have
authorized a Waynesburg constable to
go wherever a raid is reported and
kill the dogs responsible for the
damage.

Prof. W. E. Cozins, formerly prin-
cipal of the Burgettstown schools, has
accepted a position with the Ferguson
Construction company.

David Hendershot, aged 89 years, of
Washington, died last evening at the
home of his daughter, Mrs. B. F.
Woodrow. He had suffered a stroke
of paralysis some time ago and had
been in feeble health ever since.

For the first time in 35 years some
of the hand window glass plants are
operating in July. This condition of
affairs is said to be due to the fact
that these plants were idle during the
winter, and that the demand for
window glass is now great.

Rain is a serious business to the
baseball interests, but the farmer has
to live.

Mount Pleasant magistrates mix a
little Sherlock Holmes business with
their law.

Sien Te-yee and Loo Carl are the
names of two Chinese youths who
arrived in Washington yesterday and
enrolled as students in the Washing-
ton and Jefferson academy.

South Canonsburg town councilmen
are to be congratulated on the success-
which attended their movement to put
in their own sewer. By doing this
home labor was employed, home deal-
er in material patronized, and over
\$700 saved to the borough treasury.

Charles Stephens of Monongahela
was committed to jail yester-
day by Alderman R. L. El-
wood, charged with burglary and lar-
ceny. A. W. Chester was the private
prosecutor and in one instance, alleges
his son that Stephens burglarized his home.

Uniontown's lighting question has
been settled in the usual manner.
Progressive towns never go back to
gas lights if they can get any reason-
able terms for electric service.

A nolle prosequi was granted yes-
terday in the case of Salveto Vegion,
who was sent up from Monongahela in
March on a charge of arson.

The Burgess of Homestead yester-
day signed an ordinance prohibiting
the passing of bills, samples, etc., in
the borough, and directed the police to
enforce the new law strictly.

The school board of Robinson town-
ship met Monday and elected teachers.
M. W. Zahnizer, who was principal
of the township high school last year,
was again elected to the position at a
salary of \$100 per month.

The body of William McGrew, who
was killed in the explosion at the
plant of the Monongahela Water com-
pany was recovered about four o'clock
Tuesday afternoon.

Jim Barbere, the Italian who did
the stabbing in the row in Houston on
Saturday before Squire J. A. McNight
on Monday evening. He was held for
court, and failing to furnish bail,
was committed to jail.

Mike Farrine, behind the bars
awaiting trial on the charge of mur-
der, was released from jail more than
four hours Tuesday afternoon in order
that he might look upon the face of
his dead child at Masontown.

Lying full length, asleep, between
the tracks on the private right of way
just south of the curve at Balsinger,
an unidentified foreigner was struck
by the Uniontown-Brownsville car.

Among the Exchanges

A strong plea is made by the Seran-
ton Times for the provision of plenty
of watering troughs in cities, where
horses and dogs may assuage their
thirst during our hot summer days.
Among other things the Times says:
"Every man, woman and child know
what thirst means. To become over-
heated in the sun, to be tired, to
crave and long for water. Water is a
want nature has implanted in every
living thing, and without it plant or
animal could not survive. It is pos-
sible unless under the most extraordi-
nary circumstances that human beings
can assuage their thirst, but with a
horse in the harness or in the stable
is a different matter. It is intoler-
ably cruel to drive a horse in the
hot sun, to work him for hours with-
out presenting him an opportunity to
get a drink of water. It only takes
a couple minutes' delay while on the
street to water a horse or team, if
a trough is handy. Let us have a
dozen troughs and, with running
water for horses and dogs placed
about the city, and for that matter
there should be some of the fountains
arranged so human beings could get a
drink if they so desired."

An old feature of nearly every
Pennsylvania town, the public town
pump, is made note of and a proper
provision of something to take its
place is advocated by the Waynes-
boro Blue Ridge Zephyr when it says:
"Going backwards is not advisable,
but Waynesboro could return to one
of its old time facilities with profit
to its good name for hospitality.
For many years its public pump in the
public square was an institution here.
It was properly removed when the
street improvements were made, but
no provision was made for anything
to take its place. Let's go back to
the old hospitality of giving a bounte-
ous drink of water to every stranger
in the town, if he wants it! Let's
put up the pump again, changed in
form somewhat, but capable of prov-
ing as refreshing to the weary and
thirsty man and woman as the historic
pump in the squares!"

A conference of the Church at
Later Day Saints was held at Red-
stone Saturday, Sunday and Monday
last. John Morgan, of St. John,
Kansas, was present. The next con-
ference will likely be held in St.
John.

Making More Than a Living

Nearly every man who works
steadily makes more than a liv-
ing. During these slow times
the men who have saved some-
thing appreciate what it is to
have something laid away for a
rainy day. A few cents a day
soon counts up, and when sav-
ings are placed in a bank at a
tiny interest the sum soon grows
to proportions that make it a
safeguard against want when
work is not plentiful. Figure
up how much more than a living
you are making now, and place
the difference in this bank.

What a United States Citizen Experienced in Europe

A prominent citizen of the United States, before going abroad last summer, purchased a Letter of Credit. He states the following:—"I found the Letter of Credit not only acted as a passport, but gave me an introduction to foreign Banks and Bankers in Europe wherever I went. It protected my funds, gave me a Traveling Bank Account, and was readily available whenever I wanted money." We sell Letters of Credit, Travelers Checks and Foreign Drafts.

PERSONAL MENTION

Mr. and Mrs. Harry Smith formerly of Charleroi who were visiting at the home of Mrs. Ed. Reardon have returned to Toronto, Ohio.

Mrs. John Dean of Meadow avenue has left for New York to sail for Lancaster, England, for two or three month's visit.

M. M. McDermott has purchased a large red touring car, Winton Model. It is of 40 horse power.

Miss Edith Woodhall has left for Chautauqua for a visit.

Herbert Ray, Jr., left this morning for Boston where he will be employed in the Standard Plate Glass Works.

Mr. and Mrs. Louis Ikecom of Butler are guests at the home of Mr. and Mrs. John Porter of Washington avenue.

A Philosopher in a Cyclone.

"I believe in optimism," said the cheerful citizen, "but there is a limit even to that. I saw a man the other day whose house had been carried away by cyclone, and he was the most cheerful citizen in town. 'Why,' I said, 'I thought you had lost your house?'"

"I did lose it," he replied, "but there was nobody in it but me at the time, and that wasn't a hair of my head hurt. The cyclone lifted the house high, all but the ground floor where I was sleeping peaceful in my bed, and I hadn't never seen nor heard of that house since! An', anyhow, I didn't have any fire insurance on it and I wasn't able to put up a lightning rod, and of the wind hadn't took it away who knows but lightning would 'a' hit it, and I've got the rheumatism so bad I couldn't run in case o' fire."—Atlanta Constitution.

Dream Troubles.

"Once when I was blue," said a business man, "a friend told me I was worrying over imaginary troubles. He cheered me up with a yarn about his little nephew. This little fellow's sister said one morning:

"Oh, Gussie, I had such a lovely dream last night! I dreamed I was at a cake shop, and I had such loads of good things—ice cream, pie, strawberry shortcake, chocolates, jelly macaroons, kisses and lots of other things besides."

"The little boy's eyes glistened. He smiled with delight.

"And what was I eating?" he asked eagerly.

"Oh, you wasn't there, Gussie."

"Then, overwhelmed with sorrow, little Gussie hid his face in his hands and wept bitterly."

Hercules' Labors.

The twelve labors of Hercules were: To slay the Nemean lion; to kill the Lernean hydra; to catch and hold the Areadian stag; to destroy the Erymanthian boar; to cleanse the stables of King Augeas; to destroy the cannibal birds of Lake Stymphalus; to capture the Cretan bull; to catch the horses of Diomedes; to get possession of the girdle of Hippolyte, queen of the Amazons; to capture the oxen of the monster Geryon; to get possession of the apples of the Hesperides and to bring up from the infernal regions the three headed dog Cerberus.

BRYAN NOMINATED THIS MORNING ON FIRST BALLOT

After Night Session Final Voters Of States Is Taken.

MITCHELL LOOKS GOOD

Likely That Labor Leader Will Be Chosen For Vice President.

Denver, Col., July 10. (Special to Mail.) The Democratic National Convention this morning at 3:11 o'clock, Western time, 5:11 Eastern time placed in nomination on the first ballot William Jennings Bryan for President of the United States by a large majority. Gov. Johnson of Minnesota and Judge George Gray of Delaware stood little show after Bryan's name was put before the delegates last night by Ignatius Dunn.

It was at 11:06 o'clock, Eastern time, when Bryan was named and then an ovation began which lasted until after one o'clock this morning. When the final vote was taken it was greatly in Bryan's favor.

Johnson and Gray outside of their own State delegations made a very small showing.

It now looks as if second place will be given to John Mitchell, the former leader of the miners. He is a strong man and is proving a favorite. It is quite probable that soon after the convention opens at 3 o'clock he will be nominated.

AFRAID \$300 BAIL MONEY MIGHT RUN OFF

It now rests with the District Attorney as to whether the \$300 bail of Mrs. Fred Pinfold of Charleroi will be canceled and she spend the time in jail awaiting a court trial on a charge of assault and battery and using vile and abusive language, or the bail will be retained and she be free.

Mrs. Pinfold was held on Wednesday evening for court by Justice Wilson, she furnishing the bail. Yesterday it is stated she appeared and wished the bail refunded, saying she would rather go to jail. The matter was referred to the District Attorney for settlement. Mrs. Pinfold it is understood thought she would lose her money.

A Great Coal Port.
Malta is one of the most important coal ports in the Mediterranean, and consequently there are many firms there dealing in coal, of which there is at all times a large stock on hand.

Railway Supplies Are Many.
At a convention of railway storekeepers one of the statements made was that the storekeeper of the average big railway system carries 55,000 items of material in stock. Railway "scraps" are of sufficient importance as an economic factor to be divided into 133 classes in order that they may be sold most profitably.

Chinese Executions.
In Canton every two weeks there is a public execution of criminals in one of the market places.

MUST TAKE VACATIONS WITHIN CERTAIN TIME

Rural mail carriers who want a vacation at the expense of Uncle Sam will have to crowd it in between July 1 and November 1, according to notices order sent out by Postmaster James M. Esler of the postoffice department at Washington.

Rural carriers are allowed two weeks of each year with pay. In the past they were permitted to take their two weeks whenever they desired and it did not matter to the powers that be at Washington whether it was taken in July or March, just so it was taken. It is all different now. Rural carriers will have to take their time off during the nice weather and will not be able to lay off in the winter for the purpose of going hunting. The new order goes into effect at once.

INTERESTING SOCIAL NEWS OF THE DAY

A pleasant surprise was tendered Mr. and Mrs. Harry Smith of Toronto, Ohio, by the ladies of the L. C. B. A. at the home of Mrs. Ed. Reardon of Crest avenue. Music singing, and conversation whiled away the pleasant hours. At a late hour supper was served to about 40 guests who thoroughly enjoyed the good things prepared.

Mr. and Mrs. J. D. Berryman gave a barn dance at their summer place, Rose Croft, at Library last evening many attending not only from Charleroi, but from Pittsburg, Cleveland, and Monongahela valley towns. Jenkins orchestra of Charleroi furnished the music. An elegant luncheon was served the guests which were about 150 in number.

Gleanings.

Cremation is forbidden in Belgium. Early grayness without baldness is said to be an indication of long life. Australia's largest cattle herd is that running on the Victoria river station, northern territory, 320 miles south of Port Darwin. It numbers 60,000 head. M. Tomray, a Belgian engineer, has been commissioned by the committee for the international exhibition at Brussels in 1910 to erect a tower at Ixelles which will be much higher than the Eiffel tower. The cost is estimated at \$240,000.

Visitors at a Paris hotel were disagreeably surprised one morning to find that the boots they had left outside their doors had been stolen by a burglar. Only one pair was left, on which was a paper with the words, "Not good enough for me."

Science Siftings.

A man's brain attains its maximum weight at the age of twenty years, that of a woman at seventeen years. The typhoid bacillus is so minute, says a doctor, that a drop of water might contain millions. The diamond, so long the hardest known substance, now has two rivals, the silicide and the boride of titanium, products of Henri Moissan's electric furnace, being claimed to be as hard. Saturn revolves round the sun once in about thirty of our years, and as its rings are inclined at an angle to the plane of its orbit the rings present a constantly changing face to us.

CHERUBS BUNCH BINGLES

Three Scores In First Inning Too Much Of Lead For Pikers.

Charleroi beat their rivals in the Pawva league, Uniontown, yesterday, in a game figured principally by the heavy hitting of both teams, the locals having a little better of the argument in that line, however. Both clubs made a total of twelve safeties, but the Cherubs were more bunched. Charleroi started scoring in the first and pushed over three runs while the alleged Millionaires and Albright's Idols, Our Own, etc., were standing around trying to look pretty and make a bit with the fair ones in the grand stand by their graceful appearance. The worst performer of the bunch in that session was one Mr. Shettler who was touted as a headliner in his pitching act. He started by walking Nally. About the time he thought he had settled down to business Dunn laced out a two bagger. In the meantime Nally had gone to second on a passed ball, and of course he trotted in on Dunn's crack. Then O'Hara came up and batted out a single. When Capt. Cosgrove advanced with his timber and bingled, O'Hara took second and at Robb's out when he stung one down to second, tried to reach home but was caught at the plate. Cosgrove had stole second, took third when O'Hara was caught and scored when the great Rudolph dropped Pickle Heinz's fly. That was enough for Charleroi, for with three scores in the lead they could almost afford to laugh at the Pikers. They made strong bids for scores in the fourth and sixth but failure to connect safely stopped the proceedings. Uniontown did something in the third inning, scoring one point, after two were out. Cowan from Heinz to Humphries who covered first bag, and Pitcher Shettler striking out. Rudolph was given a walk, and Hilley laced out a one base hit, advancing Rudolph. When Gilligan singled the above named and famed left fielder crossed the platter. In the sixth they made a strong bid for a run, when with Josie Phillips, Roberts and Redman on base and one out, Cowan sent a boulder down to Dunn about two feet away from second. Every man on base dug, thinking it was a safe hit. Not so. Dunn made a nice stop, tossed to Cosgrove who

THIS TONIC AND BOOZE ARE NEARLY THE SAME

Jacob Jones and Thomas Brooks were held for court at hearings before Justice E. N. Dunlap of Washington, yesterday afternoon. Each is charged with selling liquor without license. Jones was given his hearing first. He was held under \$500 bail for his appearance yesterday afternoon and entered the room a little before the time for the hearing. Attorney O. C. Underwood represented the defendant while District Attorney C. L. Acheson took care of the commonwealth end.

Witnesses were called who testified to having purchased "Ideal Tonic" at the Jones restaurant, West Chestnut street. Prof. H. B. Wells, of W. and J. college, was called to the stand. He testified to having made an analysis of the tonic. He had numbered the two bottles secured from the Jones restaurant, Nos. 1 and 2. Bottle No. 1 contained 5.17 per cent. alcohol, while bottle No. 2 contained 5.19 per cent., according to Prof. Wells' test. The announcement of the analysis caused quite a stir in the courtroom.

LIKELY THAT A FOREIGN SCHOOL WILL BE STARTED

Aliens To Be Educated In Lines Of Better Citizenship.

REPRESENTATIVE HERE

Looking Over The Ground In Monongahela Valley Yesterday.

A representative of the Western Pennsylvania Training Schools for Adult Foreigners was visiting in Monongahela Valley towns yesterday, to look over the grounds for starting branches of the school throughout this section. Charleroi, Monessen and Monongahela will probably be among the places where these are started. It is more than probable that Charleroi will be the main center of the schools to be established along the valley, inasmuch as there are already several educated foreigners in this place who are at work to aid their brothers. The night schools last year meant a great deal for the aliens in this place.

Following are some of the correct ways taught foreigners in Citizen's English schools.

1st. To dispense with all knives and guns used for protection to the person, and that our Laws are sufficient protection to all law abiding Americans.

2nd. To deposit their earnings in American Banks for safekeeping.

3rd. To subscribe for the Daily or Weekly newspaper of their community and to bring them to the evening school for the lesson in English, in learning the news of the day.

4th. To refrain from intoxicating drinks of every kind and to spend their money in stores where things are for sale that will make their homes truly American and their children happy.

5th. To keep the Sabbath—not as a holiday but as a Holy Day.

6th. To keep in mind that both civil and Religious Liberty is guaranteed to every one in America.

7th. To love their native land as a man should love his mother, but to love America as a bridegroom loves his bride.

A pension of \$12 per month to date from June 3, 1908, has been granted to Robert Cain, Canonsburg, Pa. Mr. Cain was a private in Co. L, 4th Regt., Pa. Vol. Cav.

hearing and his hearing was taken up immediately after the first one closed. The defendant had no attorney. Prof. Wells was a witness in this case also. Bottle No. 1 which was purchased, it is said, from the Brooks' restaurant, according to the figures submitted contained 4.67 per cent. alcohol, while bottle No. 2 contained 5.07 per cent. alcohol. District Attorney Acheson did not sum up in this hearing and Justice Dunlap held Brooks. Both defendants were held in \$400 bail for the August term of court.

Festival.
The Washington Avenue Cadets of the 3rd Regiment United Boys Brigade of America will hold a festival in their Armory in the basement of the Church, corner of Fifth and Washington avenues on Friday evening of this week. Ice Cream, Cake, Raspberries and Cream lemonade and Candy will be served. The ladies of the church will be in charge and every one is invited to come. The proceeds to be used to complete the equipment of the Brigade.

MONONGAHELA AFFAIR CAUSES EXCITEMENT

Church people of all denominations and the Baptist in particular of this county are becoming greatly stirred up over the matter of the First Baptist church, Monongahela, where suit has been brought in the county courts by one side to oust the minister, Rev. W. H. Shawger, and obtain possession of all the church property, now held by a number of its congregation. The Pittsburg Baptist Association unanimously excluded the pastor on charges of untruthfulness and being divorced on unscriptural grounds, yet he still preaches and occupies the parsonage.

The papers in the suit of ejectment against the First Baptist church were served this morning by Deputy Sheriff Howe. It is understood that the opposing side, and the ones against whom the suit has been brought, are today formulating an answer which will be made this evening.

OPERATIONS TO BE RESUMED AT TARENTUM

Assistant Superintendent Irving Brown of the No. 2 works of the Pittsburg Plate Glass company at Tarentum, received word yesterday morning from the Pittsburg office to hasten repairs as much as possible at the plant and resume operations Monday morning, July 27th. Notices to that effect are now being posted throughout the plant. This official notice confirms the statement published several weeks ago that the shutdown would only be for four weeks, although calamity howlers at that time were prophesying that the plant would be closed until January 1st. Superintendent R. O. Stilwell, who is now enjoying a vacation at his old home in New York state will return about July 20th in order to have everything in shape for the resumption the following week.

There seemed to be no prospects of the local plant resuming at this time but it is almost generally believed that some time this fall, the works will begin operations.

Base Hits.

The New York Americans have sold Outfielder Baerwald, alias Bell, to the Memphis Southern league club.

The Boston Nationals have transferred Pitcher Ostliek to Providence and Pitcher Mair to Lawrence.

Unless present plans miscarry it is Manager Jennings' intention to work Summers and Mullin in every series for the rest of the season.

For the first time since he has been with the Cubs Artie Hoffman holds a regular position. Manager Chance announces that he will play Artie in right field permanently.

The chest protector introduced by Billy Sullivan of the Chicago Americans is being generally adopted by major league catchers. It is an upholstered affair that folds back over the shoulders and is fastened over the fashion of shoulder braces. It does away with the inconvenience of infatuation, which was one of the drawbacks of the old pneumatic type. The new gear folds four ways and takes up no more space than the pneumatic kind.

The newly elected officers of Charleroi Circle 303 P. H. C. will be installed this evening. All members are requested to be present.

Monongahela Sufferers To Be Relieved By Water Company's Action.

PIPE MUST BE LAID

Connection at Black Diamond, The Nearest Point.

The Monongahela Water Company this morning made arrangements with the Pennsylvania Railroad company whereby they could tap their pipes at Black Diamond and furnish water for the suffering residents of Monongahela. This is the nearest point where the main could be tapped, the P. R. R. company's lines running through Monongahela.

To connect with the system in the city, between 1200 and 1600 feet of pipe will have to be laid. This is to be four inch pipe. The water company will begin work at once and employ a large force working night and day to hustle the line to completion, and thus relieve the sufferers.

While in this way the stream in the pipes may not be as strong as though coming from the reservoir it will be nevertheless most satisfactory. One advantage will be the pureness of the water.

That in the reservoir is being saved, so that it may be used in case of fire. The pressure down town today is about the same as it was yesterday.

In making the connections with the P. R. R. water main, will require twenty-four hours at least.

SHOW PEOPLE ARRESTED FOR STEALING GOODS

California, July 10.—On a charge of the larceny of a gold watch and several articles of clothing, A. W. Reynolds and Grace Reynolds, members of the Bailey Carnival company exhibiting at this place, were given a hearing yesterday before Justice of the Peace J. D. Hornbake. They pleaded not guilty to the charge although a portion of the articles were found in their possession, claiming they had been gathered up with some of their own clothing. They were released upon returning the articles and the payment of costs.

The actors secured rooms at the home of Harry Jenkins but after spending one night there left. It was then that the articles were missed. The watch was later found in the Jenkins' home. Officer Lake arrested the pair and searched their belongings.

Notice.

The parties who stole the Fox Terrier Dog from the farm of Mrs. Elizabeth Furnier are known and if dog is returned immediately no questions will be asked but if not returned arrests will be made and parties dealt with according to law.

Are Consistent
Some of the Bryan organs seem
greatly grieved and indignant because
of the papers they are pleased to term
"ring papers" criticize the methods of
the air compressor at Denver

Now the fact of the matter is these
same ring papers were equally frank
in their criticisms of the methods of
the steam roller at Chicago. Both
deserve criticism, unless might makes
right a contention utterly at variance
with fair play. Guffey was chosen by
the rules of the primary election laws
of Pennsylvania and the rate com-
mitted at Denver would spell disaster
were there even a remote chance of the
Democrats carrying Pennsylvania just
as it would in the South had they any
chance to resent it at the polls.

It is a certainty that were any of the
States whose delegations were air com-
pressed and steam rolled, debatable,
nobody would have dreamed of using
such methods. The "ring papers" at
least have not lost their sense of fair
play, a thing that cannot be truthfully
said about their critics. Remember
always that "the ring" is composed of
the other fellows, as such virtuous,
lofty-minded people as yourself never
join with their fellows in a common
purpose, but like the Pharisees of old
stand afar off, smite your breasts and
thank God you are not the same as
other men

A New Richmond.
The public has been converted from
some of its sins and rescued from the
pit of perdition through the evangeli-
stic work of "reformed" burglars,
gamblers, prize-fighters, cowboys,
villainous train robbers, and other kinds
of penitent malefactors. Their efforts
seemed productive of great good.
But Washington county is going to
produce a novelty, something unique
in the line of reformatory thrillers.

It is stated that a "reformed" poli-
tician or two will enact the role of
the "horrible example" of the tur-
rible results of "booze and boodle" on
the high aspirations of "leading and
prominent" politicians, after they had
lost the combination that worked their
fearsome things.

It is stated that "Alphabet" Ache-
son is working night and day sending
out "letters to the Jacktown Constable
informing him that 'Congress
alone does' NOT 'have power to
regulate commerce between States,'
and a 'rule' will shortly be given to
that effect
At any rate Evangelists Sunday and
McAuley, et al will have to bestir
themselves to greater activity or the
reformed politicians will eclipse
them into utter insignificance

Did You.
Did you ever see a political reformer
who was not fired with an insatiable
lust for office-holding? Did you ever
in all of your life meet a "reformer"
who intended to perfect a re-
former? And is it not your whole
experience that reform meant an
office. Resolve it into its last anal-
ysis and does not reformer mean
office-seeker

Set down and commune with your
self and count up the reformers
you have known, and candidly can
you not count the number who reform-
ed anything political on the fingers of
one hand? And even with these, were
not they pitiful and grotesque in the
failures they made to redeem their
high sounding proposals?
Take Pennsylvania for instance.
Pennsylvania politicians are anathema
and anathema to reformers. Yet
Pennsylvania has the best school laws,
better hospitals, the best primary
and election laws more and better
mining laws more and better factory
laws, the best license law, in short as
the enactment of humane, enlightened
law can safeguard human rights and
further the interests of education and
human progress towards better
things Pennsylvania leads every State
in the Union.

Take a reform ridden State Kansas
for instance where every long haired
man and short haired woman has an
ism or ist labeled reform, and com-
pare her laws with those of Pennsylv-
ania and see how small a figure they
cut. "Wolverine Ike" and "Alfalfa
Moll" are great on reform but a
poke as law makers

Speaks From Experience.
The time will come—it is not here
yet—when the hoodling politician,
when the man who carries the sack
the man who provides the finances
will be unpopular.—A Dynasty Organ
Unless common report is a common
liar a big start was made in that
direction in this county April 11th,
1908. And judging from the political
debris scattered throughout Washing-
ton county that start means that the
"sack" failed in its old time power
to retain the voters to the cause
of the Dynasty.

Still Holds On.
The air compressor still holds on to
its frenzied methods. Judging from
the various newspaper reports the con-
vention would be acquitted of a capital
crime on the grounds of emotional
insanity

Should Not Blubber.
The Dynasty should carefully read
the accounts of the massacres of Jew-
ish prisoners at Ykaterini prison before
it indulges in any more lachrymal
cant about the "poor Russians."

Because there was no evidence to
convict Louis Koko, who was jointly
indicted with John Shumaker for the
murder of Alex. Shumaker, at Mead-
owlands last March has been released
from jail.

Among the Exchanges

A strong plea is made by the Scrat-
ton Times for the provision of plenty
of watering troughs in cities where
horses and dogs may assuage their
thirst during our hot summer days.
Among other things the Times says:
"Every man, woman and child know
what thirst means. To become over-
heated in the sun, to be tired, to
crave and long for water. Water is a
want nature has implanted in every
living thing, and without it plant or
animal could not survive. It is pos-
sible unless under the most extraordi-
nary circumstances that human beings
can assuage their thirst, but with a
horse in the harness or in the stable
is a different matter. It is intoler-
ably cruel to drive a horse in the
hot sun, to work him for hours with-
out presenting him an opportunity to
get a drink of water. It only takes
a couple minutes' delay while on the
street to water a horse or team, if
a trough is handy. Let us have a
dozen troughs and, with running
water for horses and dogs placed
about the city, and for that matter
there should be some of the fountains
arranged so human beings could get a
drink if they so desired."

An old feature of nearly every
Pennsylvania town the public town
pump, is made rote of and a proper
provision of something to take its
place is advocated by the Waynes-
boro Blue Ridge Zephyr when it says:
"Going backwards is not advisable,
but Waynesboro could return to one
of its old time facilities with profit
to its good name for hospitality.
For many years its public pump in the
public square was an institution here.
It was properly removed when the
street improvements were made, but
no provision was made for anything
to take its place. Let's go back to
the old hospitality of giving a bounti-
ous drink of water to every stranger
in the town, if he wants it. Let's
put up the pump again, changed in
form somewhat, but capable of prov-
ing as refreshing to the weary and
thirsty man and woman as the historic
pump in the squares!"

A conference of the Church at
Later Day Saints was held at Red-
stone Saturday, Sunday and Monday
last. John Morgan, of St. John,
Kansas, was present. The next con-
ference will likely be held in St.
John.

**The Proof
of the
Pudding**

Nearly all fire insur-
ance policies are dress-
ed alike.
They are mostly
gaily lithographed fel-
lows filled with many
"aforesaid's" and
"hereinafters."
They all promise you
the same thing—pro-
tection.
The proof that the
promise is protection
lies in the past record
and present condition
of the issuing company.
Our policies are
backed by companies
that have been tried
and proven.

**Making More Than
a Living**

Nearly every man who works
steadily makes more than a liv-
ing. During these slow times
the men who have saved some-
thing appreciate what it is to
have something laid away for a
rainy day. A few cents a day
soon counts up, and when sav-
ings are placed in a bank at a
tidy interest the sum soon grows
to proportions that make it a
safeguard against want when
work is not plentiful. Figure
on how much more than a living
you are making now, and place
the difference in this bank.

BERRYMAN'S

The July Clearance Sale!

The Sale of the Season Will Begin Today

All hands have been preparing for this Shelf Emptying July Clearance Sale. Clerks have been ransacking their stocks and planning lots and reductions in accordance with the management's orders to clear out everything that's surplus, broken in assortment, or at all mussed or soiled.

There will be at least \$10,000

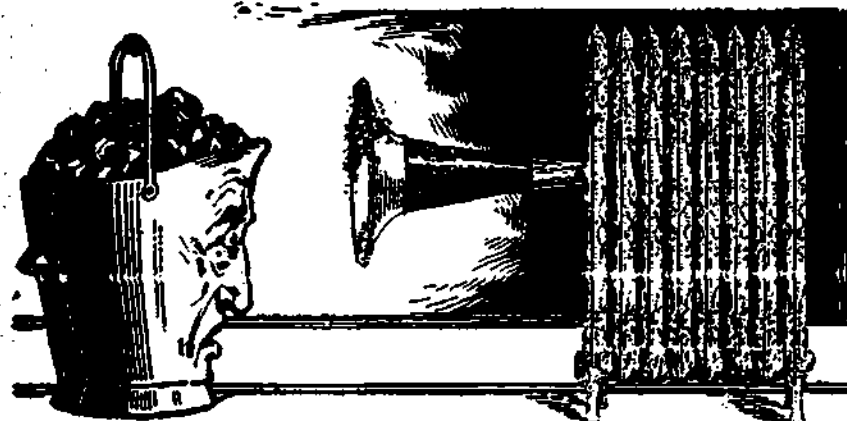

worth of merchandise to dispose of at recklessly low prices. Our big sales are famous over this section because the reductions are genuine, the value being always exactly as, or better than stated.

What a United States Citizen Experienced in Europe

A prominent citizen of the United States, before going abroad last summer, purchased a Letter of Credit. He states the following:—"I found the Letter of Credit not only acted as a passport, but gave me an introduction to foreign Banks and Bankers in Europe wherever I went. It protected my funds, gave me a Traveling Bank Account, and was readily available whenever I wanted money." We sell Letters of Credit, Travelers Checks and Foreign Drafts.

PERSONAL MENTION

Mr. and Mrs. Harry Smith formerly of Charleroi who were visiting at the home of Mrs. Ed. Reardon have returned to Toronto, Ohio.

Mrs. John Dean of Meadow avenue has left for New York to sail for Lancaster, England, for two or three month's visit.

M. M. McDermott has purchased a large red touring car, Winton Model. It is of 40 horse power.

Miss Edith Woodhall has left for Chautauqua for a visit.

Herbert Ray, Jr., left this morning for Boston where he will be employed in the Standard Plate Glass Works.

Mr. and Mrs. Louis Ikern of Butler are guests at the home of Mr. and Mrs. John Porter of Washington avenue.

A Philosopher in a Cyclone.
"I believe in optimism," said the cheerful citizen, "but there is a limit to that. I saw a man the other day whose house had been carried away by cyclone, and he was the most cheerful citizen in town. 'Why,' I said, 'I thought you had lost your house?' 'I did lose it,' he replied, 'but there was nobody in it but me at the time, and that wasn't a hair o' my head hurt. The cyclone lifted the house high, all but the ground floor where I was sleeping peacefully in my bed, and I didn't never see nor hear o' that house since! An', anyhow, I didn't have any fire insurance on it and wuzn't able to put up a lightning rod, and of the wind hadn't took it away who knows but lightning would 'a' hit it, and I've got the rheumatism so bad I couldn't run in case o' fire.'"—Atlanta Constitution.

Dream Troubles.
"Once when I was blue," said a business man, "a friend told me I was worrying over imaginary troubles. He cheered me up with a yarn about his little nephew. This little fellow's sister said one morning: 'Oh, Gussie, I had such a lovely dream last night! I dreamed I was at a cake shop, and I had such loads of good things—ice cream, pie, strawberry shortcake, chocolates, jelly macaroons, kisses and lots of other things besides.' 'The little boy's eyes glistened. He smiled with delight. 'And what was I eating?' he asked eagerly. 'Oh, you wasn't there, Gussie.' 'Then, overwhelmed with sorrow, little Gussie hid his face in his hands and wept bitterly.'"

Hercules' Labors.
The twelve labors of Hercules were: To slay the Nemean lion; to kill the Lernean hydra; to catch and hold the Arcadian stag; to destroy the Erymanthian boar; to cleanse the stables of King Augeas; to destroy the cannibal birds of Lake Stymphalus; to capture the Cretan bull; to catch the horses of Diomedes; to get possession of the girdle of Hippolyte, queen of the Amazons; to capture the oxen of the monster Geryon; to get possession of the apples of the Hesperides and to bring up from the infernal regions the three headed dog Cerberus.

Begin at Home.
When amateurs for "charity" Present a little play, Why shouldn't they keep what they make,
For who so poor as they?
—Catholic Standard and Times.

Two Bites of a Cherry.
"Cholly gave me a piece of his mind."
"Gee! Did he have any left when he got through?"—Cleveland Leader.

A First Class Music Store

Charleroi has a music store where everything that's musical is sold. It may be a piano, or it may be a violin, or phonograph. We can furnish it. We handle such a large quantity of musical goods, the scope of our business is so large, that we are always able to make prices the lowest and terms the easiest. Post yourself on the fine lists we handle in pianos and you will understand why it is unnecessary for anybody to go outside of Charleroi to buy.
